

Canadian Woodlands Forum

Experience the Benefits of your Membership

Promote the health and financial wellness of your employees by providing comprehensive benefits and retirement solutions.

The Canadian Woodlands Forum (CWF), in partnership with Belmont Health & Wealth, began a voluntary group employee benefits program in 2009 for Members and Associate Contractors. The plan continues to be both competitive and affordable.

The program is solely designed to meet the needs of CWF members, providing flexibility with the broader range of benefits typically reserved for larger employers, with added cost savings.

Advantages of joining the plan:

- Flexible, cost-effective options
- Rate stability since inception
- Spreads risk across all agencies participating in the plan
- Higher Target Loss Ratio - more of the premium paid goes towards claims before rate increases are required
- Insurer charges less to administer a larger program
- Lawtons discount program - save money on front store items
- Additional savings as CWF benefits program grows
